CLEAN & DRY SMART FILTRATION KIT

FOR FLOW RATES UP TO 50 GPM / 189 LPM

The Clean & Dry Smart Filtration Kit removes fuel contamination, stops water as it leaves the bulk tank efficiently with excellent ISO 4406 cleanliness level.

The Clean & Dry Smart Filtration Kit uses two single heads hooked up in series to accomplish two different jobs. The first head holds a particulate filter that cleans the fuel. The second head holds a water absorber that removes free water, ensuring only clean, dry diesel reaches your equipment.

Donaldson's proven spin-on technology also makes our Clean & Dry Smart Filtration Kit extremely easy to service without the need of specialized tools and personnel.
